

# Modernize your financial institution's onboarding experience with Persona

Provide your consumers with the same level of service whether in-branch or online. Streamline onboarding for individuals and businesses while meeting compliance requirements - with little to no technical expertise required.

## 01 Increase conversion of consumers while preventing fraud

Leverage our robust set of verifications to confirm the identities of individuals and entities during account opening or before high-risk events while adding an extra layer of security to prevent fraud.

## 02 Create a single identity experience across all product lines

Use one identity solution across all product lines, creating a cohesive experience for your consumers and reducing redundancies across your verification processes.

## 03 Stay compliant with local and regional requirements quickly and efficiently

Comply with regional compliance program requirements such as FINCEN or FINTRAC in weeks, not months, with an end-to-end solution.
