

hopscotch

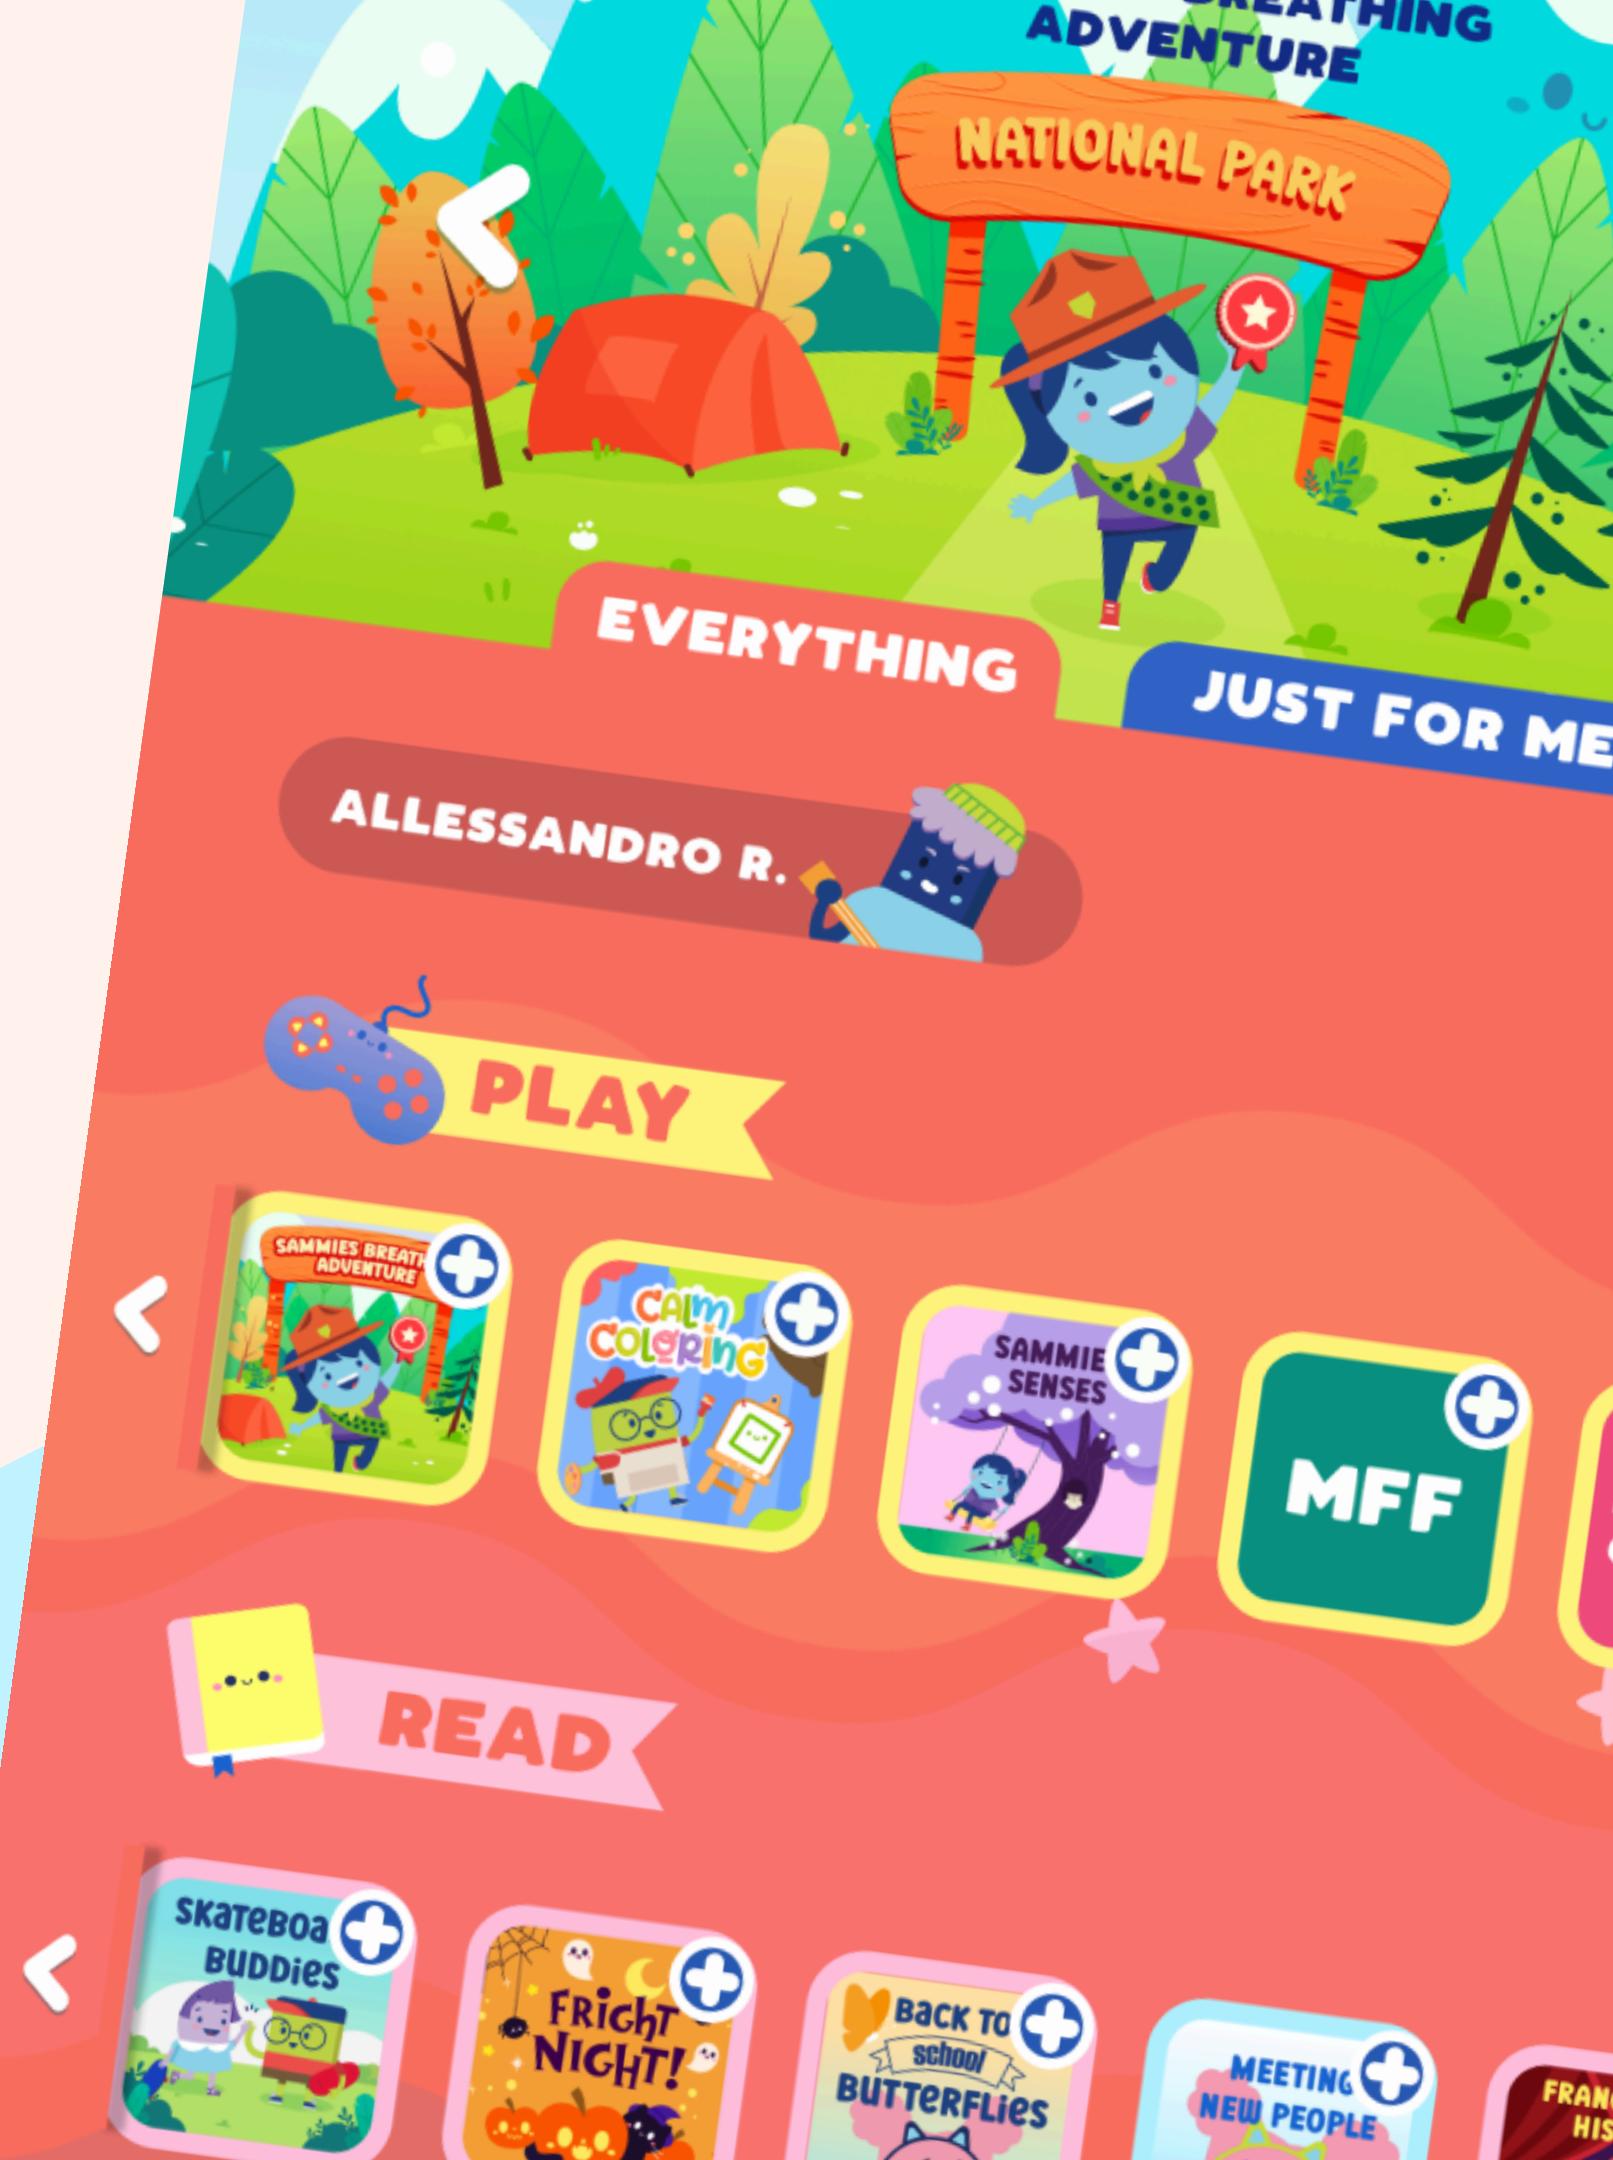

Created by providers, for providers.

A digital world that makes therapy fun and engaging for kids!

H

opscotch Play is a fun and innovative desktop app that combines therapeutic elements with fun and interactive content.

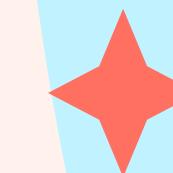

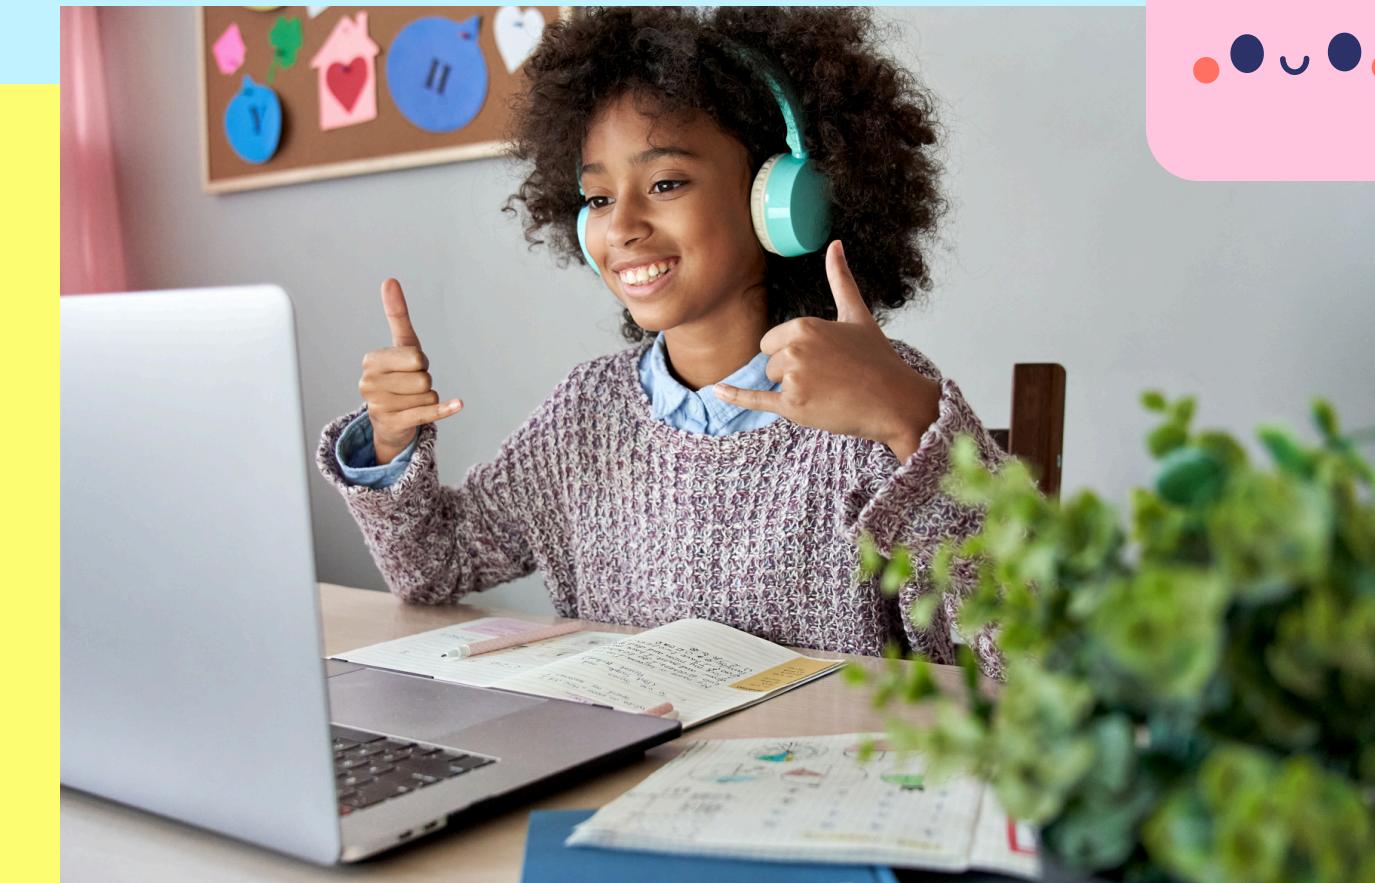

Maximize client engagement and involvement with hands-on games, activities, stories, and more! Hopscotch PLAY has everything you need to run effective and engaging sessions – all in one platform!

IN-PERSON SESSIONS

For use with clients in-person, Hopscotch Play can be used on a desktop or laptop.

VIRTUAL SESSIONS

For virtual sessions, Hopscotch Play can be installed and enabled on desktop. *For optimal experience, screenshare and remote control functionality would need to be enabled.*

Features of Hopscotch Play

★ Individualized Client Accounts

Hopscotch Play allows for a personalized experience for each child through unique client accounts.

- Custom user name
- Avatar selection

The image shows a screenshot of the Hopscotch Play app. At the top, there is a cartoon character of a white dog wearing a yellow cap with a red 'H' and a yellow star wand. Below the character, the text 'HOPSCOTCH PLAY!' is displayed in white on a blue background, and 'DR. LONG NICKNAME' is shown in a yellow banner with a small green character icon. The main area is titled 'WHO'S PLAYING?' and features a 'ADD NEW' button with a plus sign. Below this, there are eight circular avatars, each with a different character and name: ALESSANDRO A. (blue book), ANDREW J. (orange book), MICHELLE R. (orange book), AYA A. (yellow book), ANDREW G. (orange book), LONGNAME A (orange book), and PENELOPE ROSE M. (orange book). A large white arrow points to the right on the right side of the screen.

★ CLIENT MENU

Once a client's account is accessed, they are presented with a categorized menu of games, activities, stories, and more!

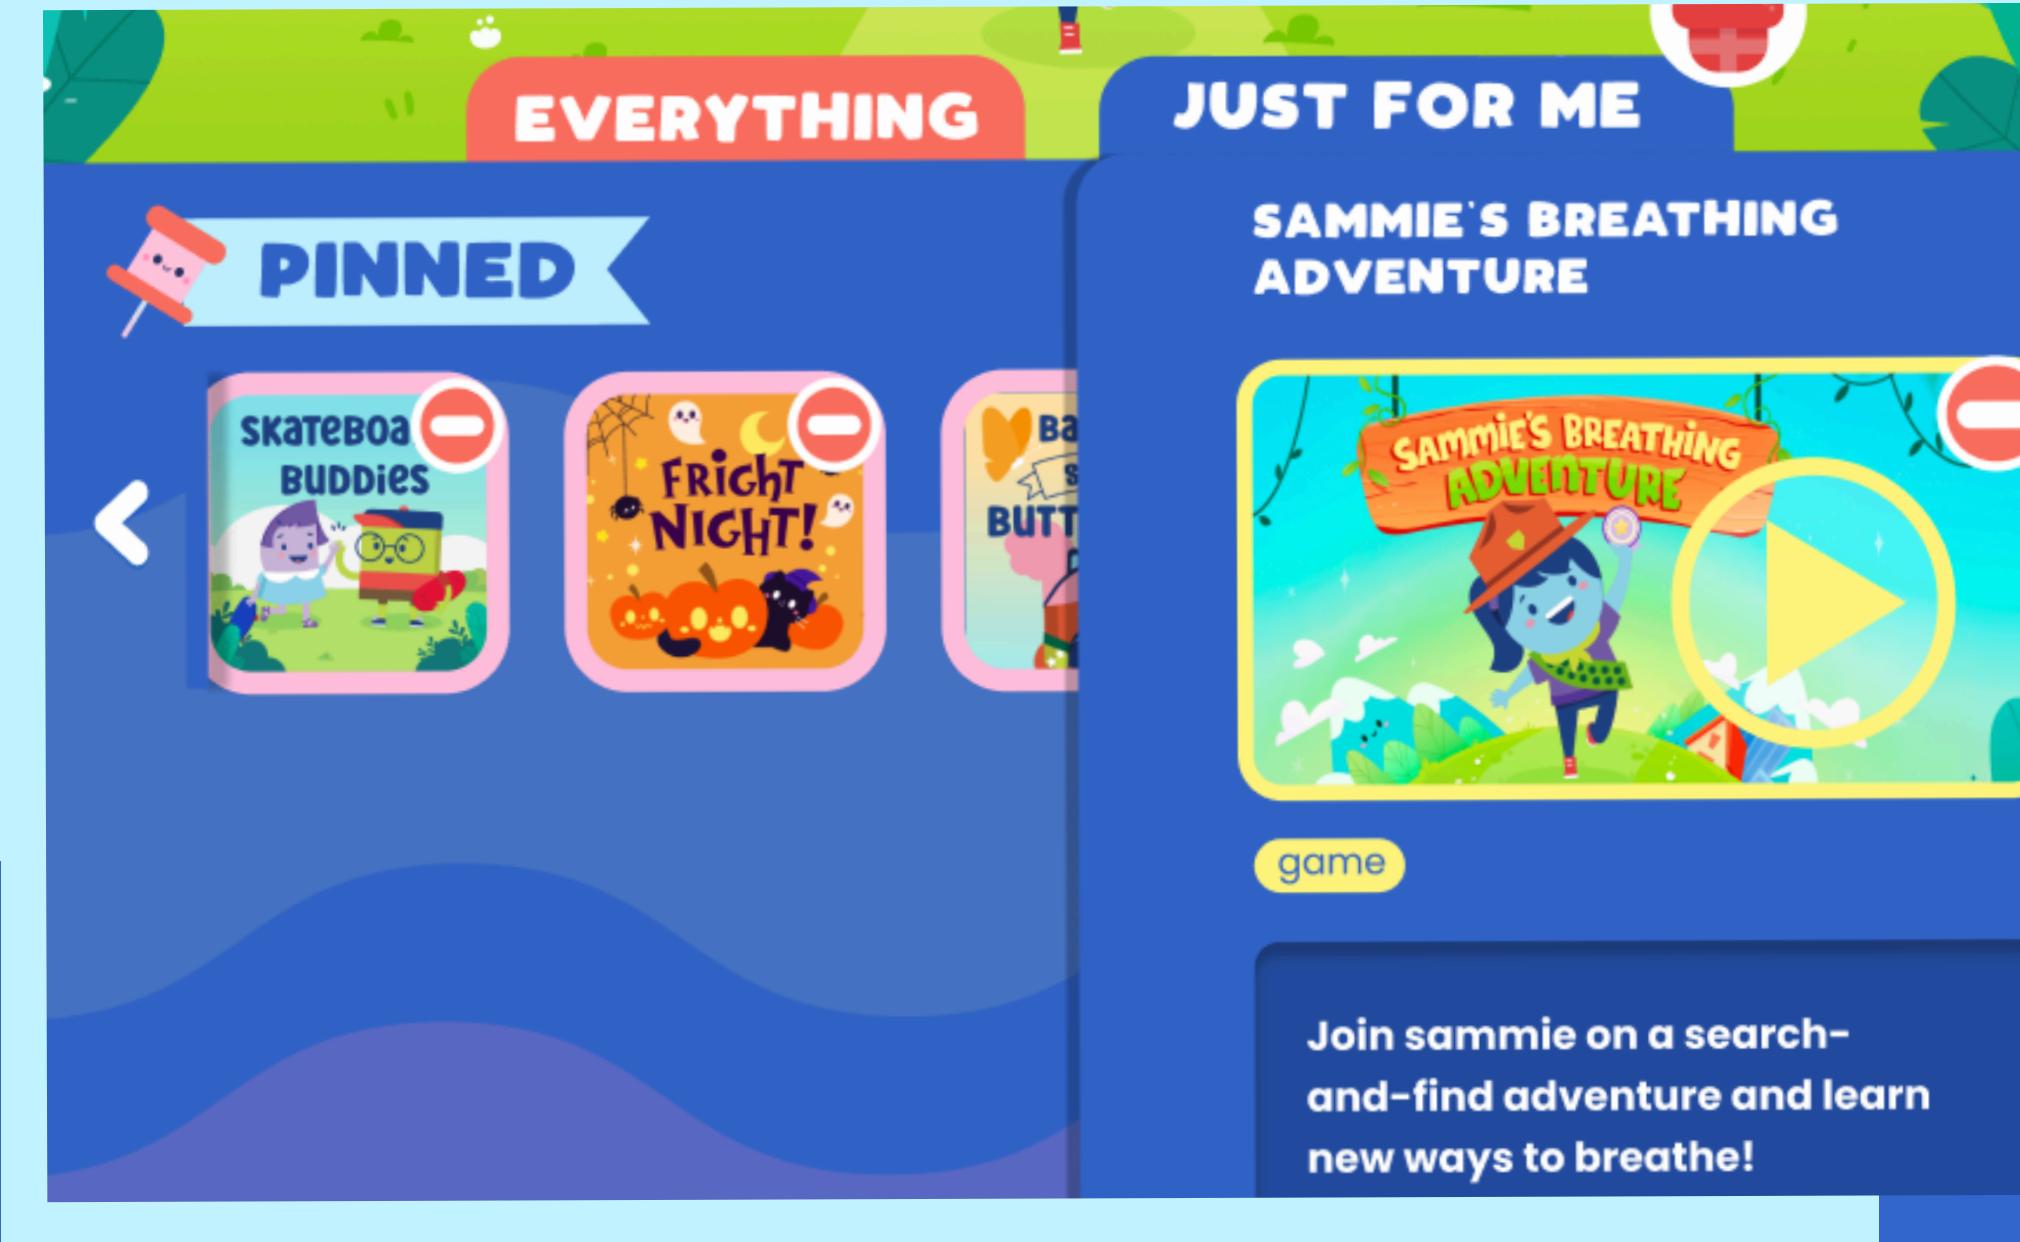

- Client and clinician-facing descriptions
- Therapeutic themes
- Related resources

SESSION PLANNING

Users can easily select and pin games and activities in advance, ensuring a seamless and well-organized experience for both the provider and client.

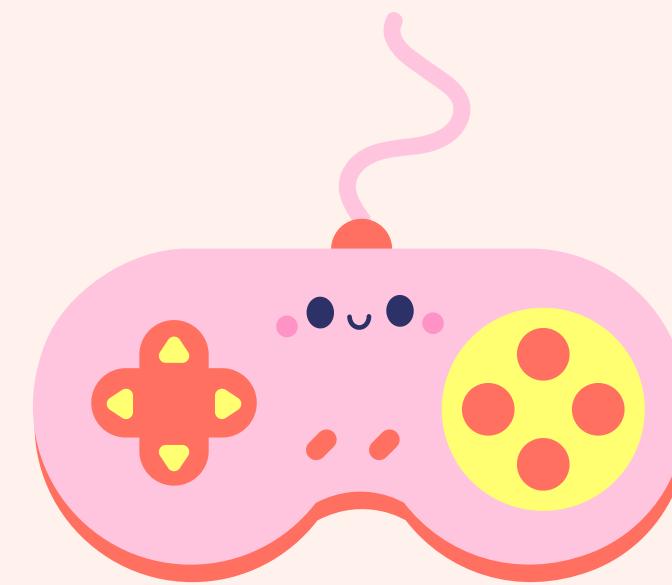

SAVED PROGRESS TRACKING

Hopscotch PLAY empowers users with the ability to pick back up where they left off in previous sessions. This seamless continuation feature ensures a smooth transition between sessions, promoting a consistent and progressive therapeutic experience for each child.

EXAMPLE GAME

My Feelings Face

My Feelings Face is a feelings check-in activity for kids where they can color or create a feeling face! This activity has many therapeutic uses allowing clients to identify and explore their emotions.

CoPingo! DEEP DIVE

EXAMPLE GAME

CoPingo!

With CoPingo, clients can discover and implement healthy coping strategies as they work towards completing their entire coping skills board.

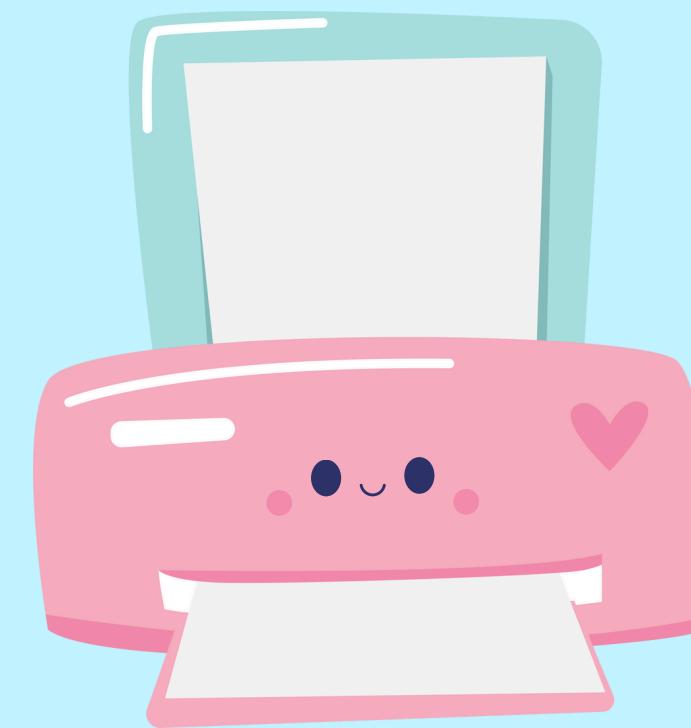

★ DOWNLOAD-TO-PDF

Most games will include a download-to-pdf button which will allow your work with clients to be saved as a PDF and printed, uploaded, or emailed.
