Fundraising Pages

Make it easy for individuals and teams to raise money for your cause

Peer to Peer fundraising pages boost donor engagement and provide an additional revenue stream

- Enlist donors to tap into their networks
- Promote friendly competition among fundraisers
- Bring more attention to your organization

Maximize your peer-to-peer fundraising efforts

Now your most enthusiastic donors can become fundraisers – and bring their friends along.

It's easy to become a fundraiser using Handbid. Donors can create their own pages, set fundraising goals, and even join a team.

Team pages and leader boards inject a little healthy competition into fundraising. The harder your donors try to win, the more money you raise.

Do all of these things with your Handbid fundraising pages

- Add fundraising goals in any amount
- Include compelling images and video content
- Publish a fundraising story that brings more donors on board
- Assign pages to teams so donors can compete with each other
- Encourage more donations by showing the amount raised
- Make giving easier and more fun

Use templates to manage fundraising page design

Create your own fundraising page templates in Handbid. When someone starts a new fundraiser, everything they add to the page conforms to your template specifications.

That way, you get to control the look and feel of your fundraisers, even though individuals and teams are running them.
