

Remediation Preview

On-Demand Privacy Evaluation

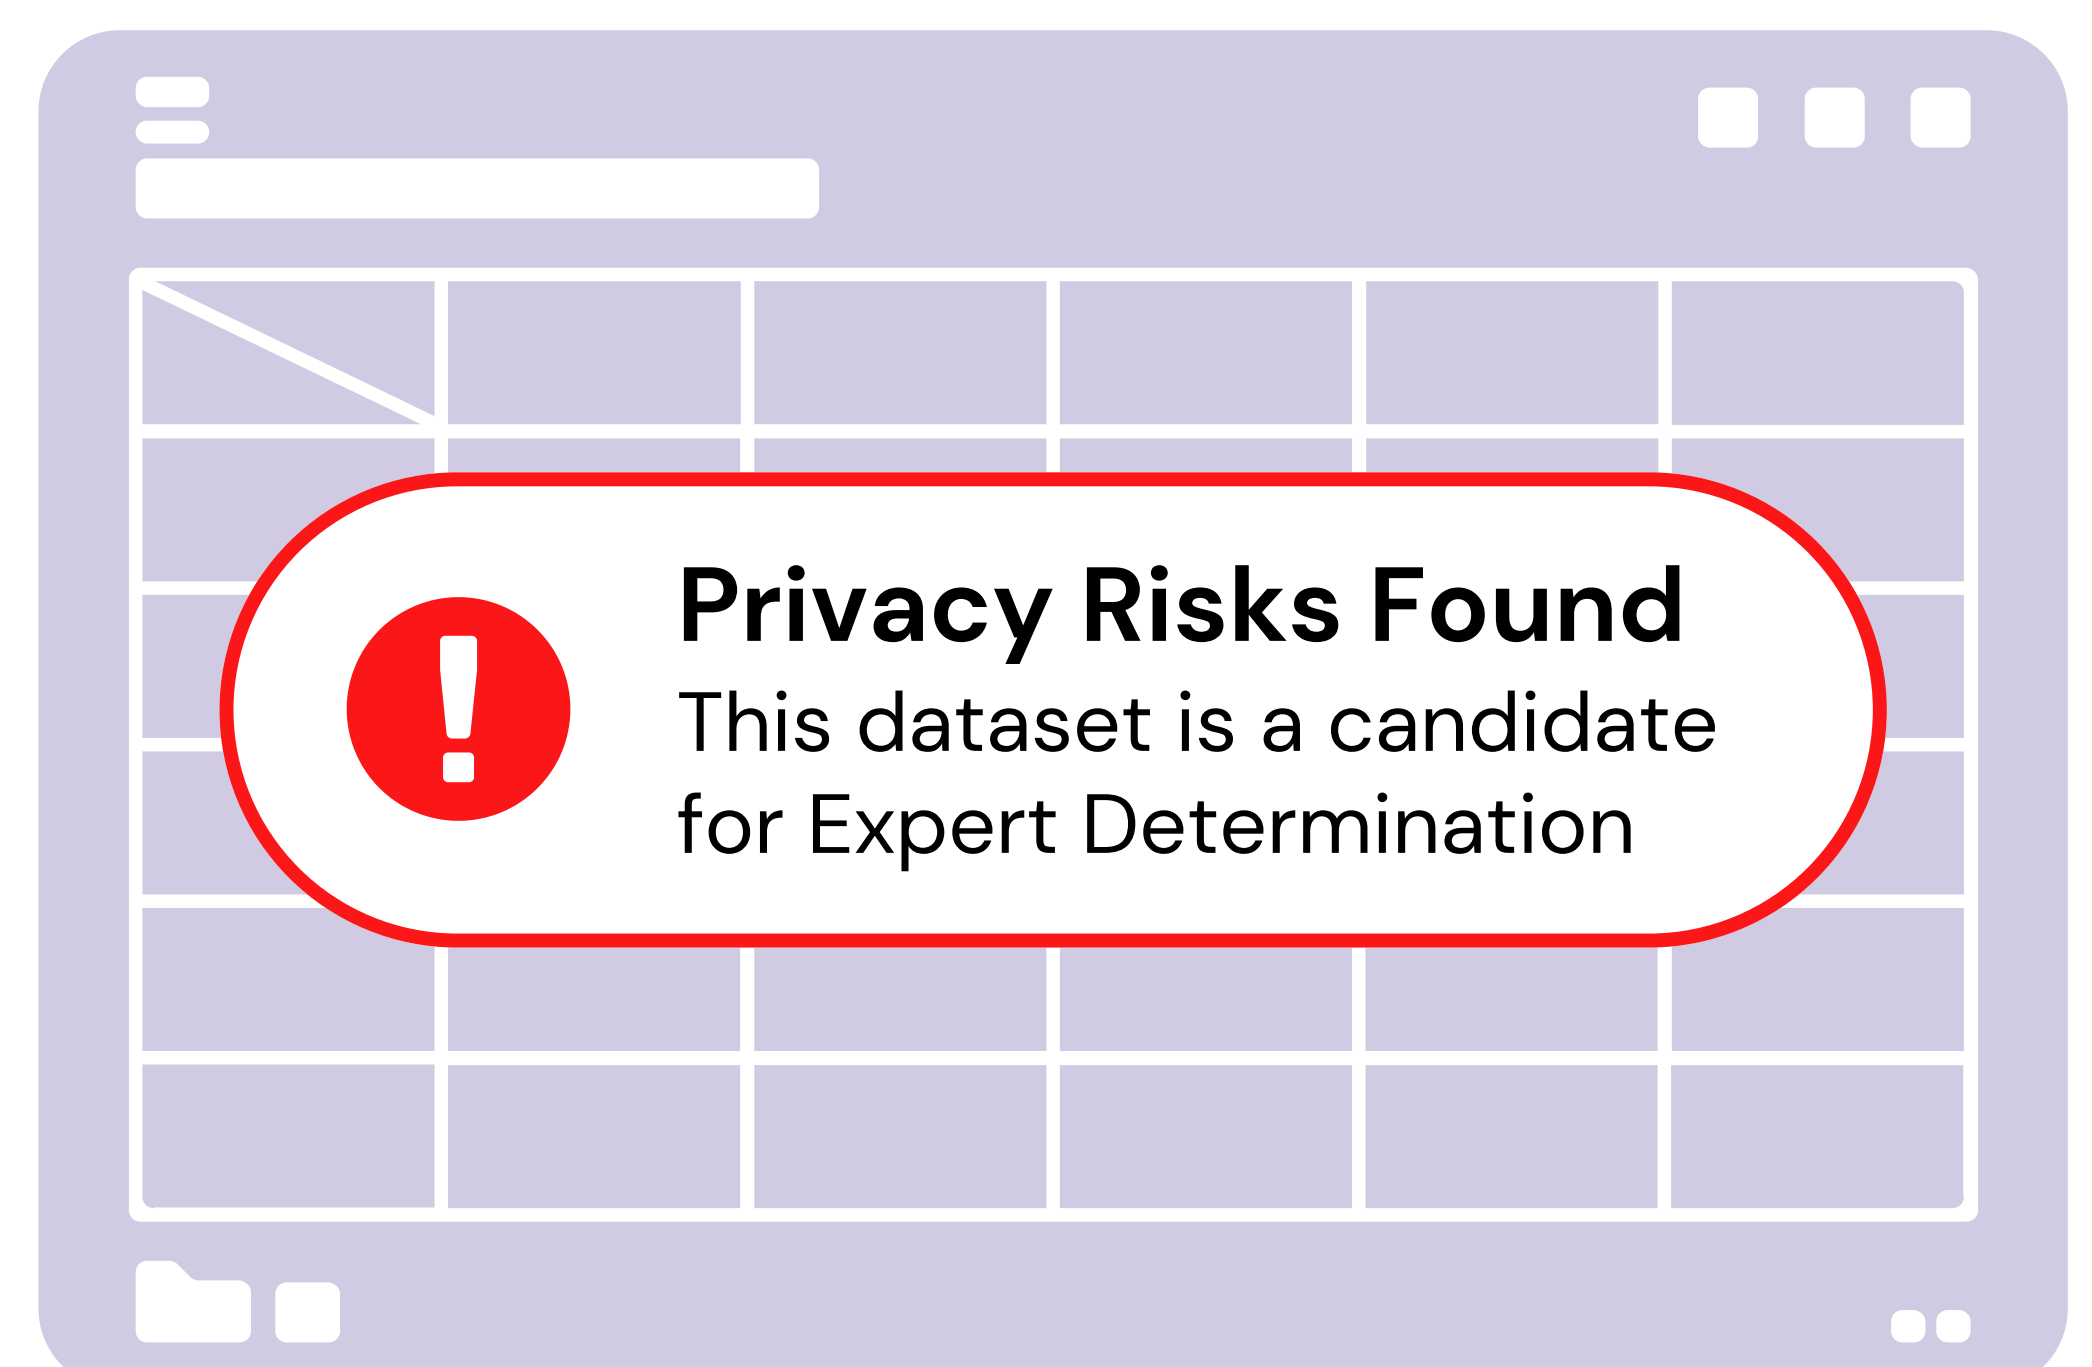

OVERVIEW

Organizations face increasing challenges in assessing privacy risks and compliance requirements for new datasets before acquisition or use. The process is often **time-consuming and resource-intensive**.

Integral's Remediation Preview offers an automated 'expert-in-the-loop' solution for evaluating dataset privacy risks and compliance needs. Our service leverages advanced data management and compliance evaluation technology to provide quick, accurate assessments and remediation options, **turning a privacy headache into a strategic advantage**.

CONFIDENCE IN COMPLIANCE

Gain rapid data health and privacy risk insights, **supporting compliance readiness within 2 business days**, optimizing resources and enabling informed, data-driven decisions with unprecedented efficiency.

THE PROCESS

1 Consultation

Meet with our experts to discuss your specific use case and objectives, then **securely share your data** dictionary or data sample.

2 Privacy Analysis

Our system performs a comprehensive privacy review, generating detailed insights, and **tailored options for remediation**.

3 Impact Discussion

Explore the findings with our experts, reviewing detailed findings that include data health, privacy risks, and **multiple remediation options to enable your ideal data set**.

4 Rapid Expert Determination

Success! With an understanding of the necessary remediations, Integral can support converting to an Expert Determination in a matter of days.

Connect with us to get started on your Remediation Preview today.
