

CATALYST Advanced Fraud Solutions™

First in Fraud Defense

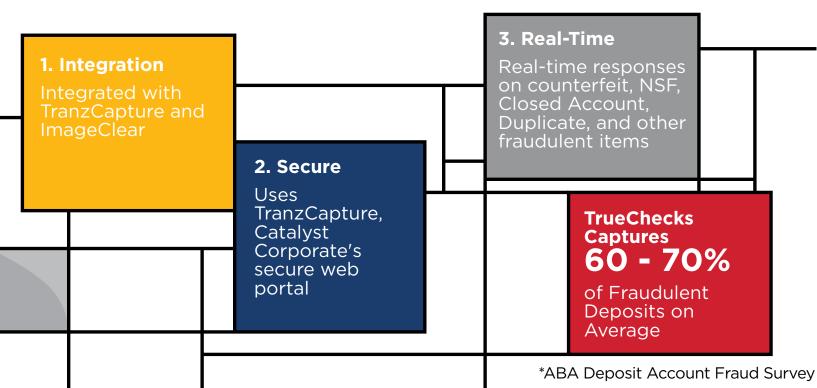

Prevent check fraud deposit losses at the front line. This private, cloud-based solution integrates with TranzCapture and ImageClear

CHECK FRAUD IS STILL A BIG PROBLEM

Fraud against bank deposit accounts amounted to \$19.1 billion in 2016, according to ABA estimates. This amount includes \$2.2 billion in losses to the industry and \$16.9 billion in fraud prevention, i.e., fraudulent transactions that were stopped by banks' prevention measures.*

How TrueChecks® Works to Stop Fraud:

- 1. Comprehensive database comprised of account level information from thousands of financial institutions with over 10 years of historical data from customers, processors, and third-party sources.
- 2. Virtually transparent to the account holder, TrueChecks displays Reg CC-recommended actions and associated risk so even inexperienced tellers can make the right call.
- 3. TrueChecks is integrated with TranzCapture or ImageClear via a web portal on a secure private cloud.
- 4. 3-Ways to Detect Fraud Across all Deposit Channels:

FRAUD PREVENTION that covers all points of capture

For Summit Credit Union (Greensboro, NC) and its members, deploying the same fraud prevention tools across deposit channels was critical to the successful growth of mobile deposit. Between 2014 and 2018, Summit achieved a 43% YoY increase in mobile deposit users, but with this increase in users came an increase in check fraud. After launching TrueChecks in December 2017, the rate of checks returned due to NSF decreased by nearly 50%. In May 2018, for instance, there were only 2 returned checks from the mobile channel.

"We couldn't be happier with this product. We are amazed at the number of items caught at the front line. We have been able to reduce our potential losses significantly over the last three months. Seems like a daily occurrence of catching fraudulent items. Members that are being scammed are also appreciative that we have taken the steps to protect them as well."

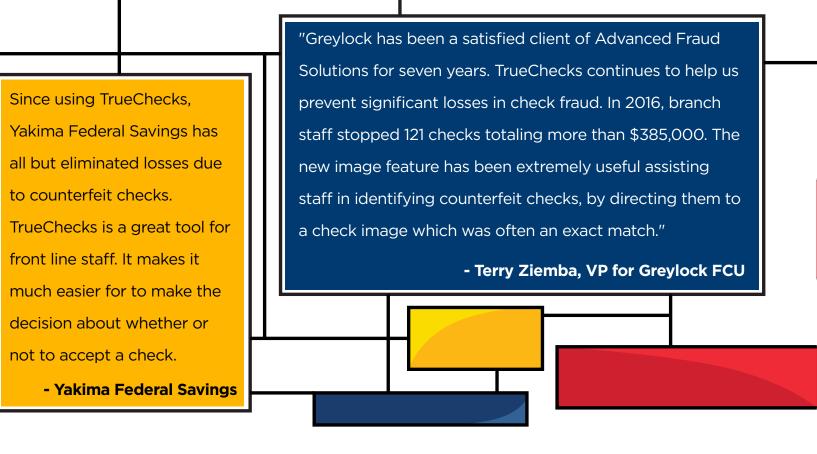

> - CoastHills Federal Credit Union

OMNICHANNEL CHECK FRAUD DETECTION

TrueChecks works across all deposit channels including ATM/ITM, teller line, remote/mobile capture, business capture, etc. to identify fraud and alert your staff. This all-in-one solution can fit your needs at every point along the line to provide comprehensive fraud prevention.
