

Get the right patients for your practice

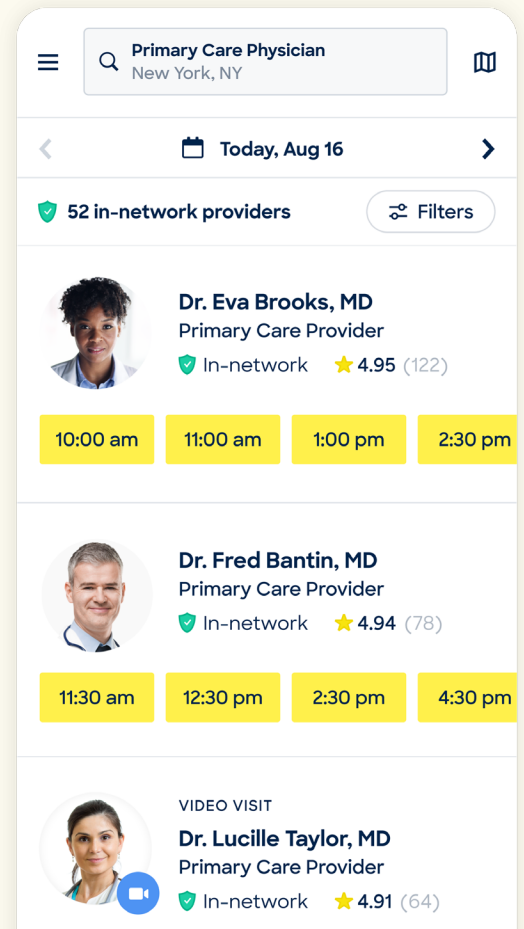

Attract more patients.
Millions visit our site every month to search for a new provider.

Join for free.
There's no charge to list your practice, no setup cost, and no monthly fee.

Pay for results.
You only pay when a new patient books their first appointment.

How Zocdoc works

A website and app where patients find new providers

STEP 1

You identify patients you're looking for

You list your accepted insurances, visit reasons, locations, and availability.

STEP 2

Patients search for relevant providers

The right patients find you and view your profile.

STEP 3

Patients book an open time slot

Zocdoc shows your real-time availability by integrating with your calendar. Patients book a time that works for them.

STEP 4

You get the pre-appointment information you need

You can collect your forms, insurance cards and IDs online from patients before their appointment.
