

Stripe payment processing

Donor platform

- A donor makes a donation (single or recurring)
- Stripe processes the payment
- The platform sends notification to Virtuous

- Gift and contact data are loaded into Virtuous
- Gift splits are configured for the donation
- Gift splits are linked to Virtuous projects

- Stripe processes the payment into a settlement
- Stripe sends settlement details to GiftSync
- Stripe sends transaction costs to GiftSync

- Ingests data from Virtuous gifts and Stripe settlements
- Create Invoices and expenses for the Stripe settlements
- Generates journal entries based on gift splits and Virtuous projects

- Reconciles bank deposits against the settlement invoice for accurate financial tracking
- Imports journal entries to reflect fund allocations to Virtuous projects
