

Faster hiring. Less work for HR. A better experience for every candidate.

Solving the challenges that hold hiring back.

Integrated with Phenom, JDP combines responsive support, modern screening technology, compliance expertise, and program guidance to help organizations streamline hiring, reduce administrative work, and create a better experience for recruiters and candidates.

1

Slow hiring timelines.

Delays in background screening slow hiring, create uncertainty, and leave positions unfilled longer than necessary.

With JDP

57% faster
time-to-fill

2

Rising costs. Stagnant value.

Unexpected price increases and billing complexity drive up costs without improving your screening program.

With JDP

28% lower
overall program costs

3

Inconsistent client care.

Long wait times, multiple handoffs, and generic support make it harder to get answers when you need them most.

With JDP

75% less HR
handling time

4

Unsupported compliance.

Without the right partner, keeping up with evolving regulations leaves your organization exposed to unnecessary compliance risk.

With JDP

Dedicated
compliance experts

5

Integration challenges.

Manual processes, disconnected systems, and lengthy implementations create unnecessary work for recruiters and HR teams.

With JDP

Seamless
system integrations

6

Poor candidate experience.

Complicated screening workflows frustrate candidates, increase drop-off, and slow the hiring process.

With JDP

1 day faster
candidate engagement
