

WHOLESALE CONNECT

# Set a path to fully integrate your business with your Simpro customers

That's helpful!

## The problem

Your customers crave integrated systems. If you're not linked up with Simpro—the leader in job management for tradies—it could seriously affect your relationships and bottom line with your most valuable clients.

Until now, this integrated path has only been accessible to a select few.

## The solution

Fueled by innovation and customer feedback, together Lentune and Simpro have unveiled **Wholesaler Connect**—a best-in-class wholesaler/Simpro integration.

It's a smarter, faster integration that gives you a fully automated customer experience. And it's available to everyone, now.

## Unlock these automations now

**Sync your customers' price file** into their Simpro catalogue.

**Send your customers' invoices** directly into Simpro against their jobs.

## Automations coming soon

**Sync quotes and pricing between Simpro and Lentune.** Updates in one system can be auto-synced to the other, removing manual data entry.

**Pull your customers' Simpro POs into Lentune.** Say goodbye to manually entering orders received from your Simpro customers.

## How much does this integration cost?

First, choose what you want to connect, then estimate how many customers will use the integration.

Module	Monthly subscription based on # of Simpro connections			
	1–49	50–99	100–199	200+
Automated invoice transfer Product price file transfer & updating	\$500	\$800	\$1200	POA
Purchase orders & quotes	TBA	TBA	TBA	TBA

Prices current as of October 2024.
