

SafetyCulture

SharePoint

Single Source of Truth

SharePoint remains your governed system of record while SafetyCulture automatically receives the latest approved documents.

Built for Frontline Teams

Teams access documents directly in the SafetyCulture mobile app, including offline—no SharePoint navigation required on site.

Always Current Documents

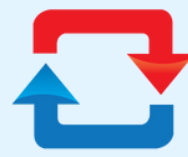

One-way syncing ensures only the latest approved versions are available in SC, preventing outdated or retired content from appearing.

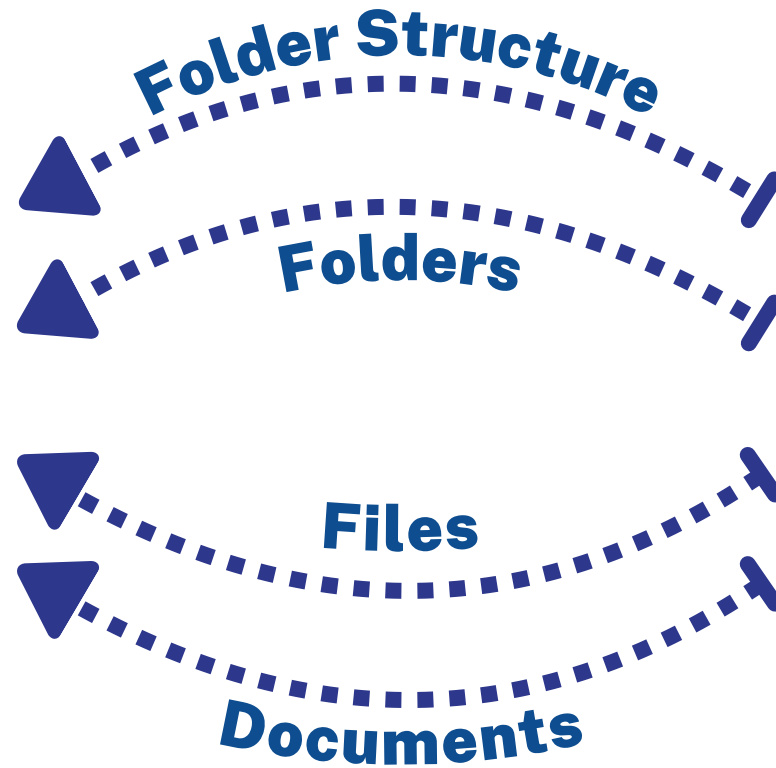

Folder Structure Mirrored

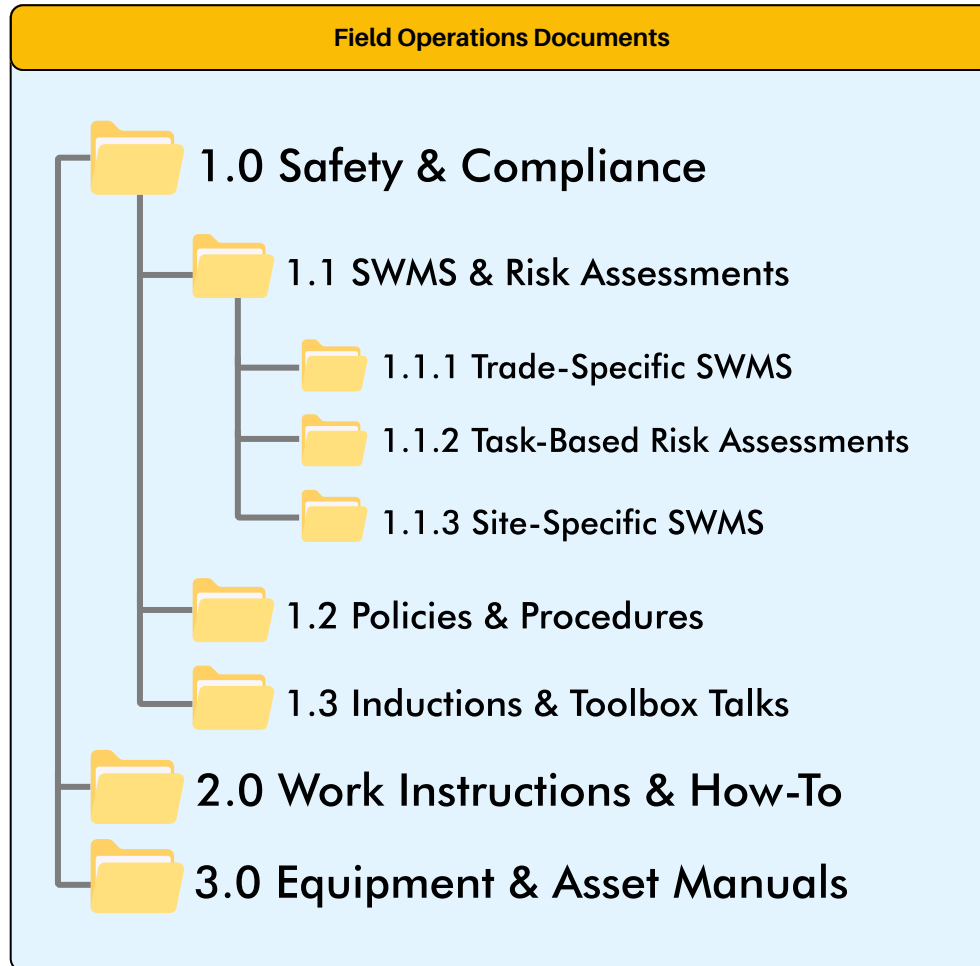

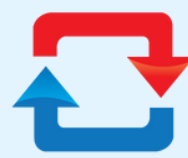

Your entire SharePoint folder structure syncs into SafetyCulture, including SOPs, SWMS, safety documents, and manuals—no manual uploads.

SafetyCulture

No Brainer – very simple, easy to use, friendly team with all the answers

Philipp Ludwig
– National Asset Manager, Platinum Electricians

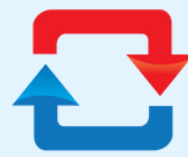

***Safety*Culture**

We really appreciate the prompt response and follow-up from the SyncEzy support team when we encounter problems.

Kaushik Mancell
– National HSEQ Systems Coordinator at
STOWE AUSTRALIA PTY LTD

Current Functionality:

SharePoint Documents and folder structure synced to SafetyCulture. Automatically updated with the right versions based on updates to SharePoint.

Under Consideration:

Inspection Reports Synced to SharePoint conditionally based on Templates completed or Sites selected
