Elevate Your Impact With MissionGranted's Powerful Financial Grant Management Tools

Simplify Budget & Scenario Planning

MissionGranted automates budget building for operations, programs, and grants, providing nimble scenario-planning and allowing you to see financial impact in real time.

Automate Time-Consuming Tasks

MissionGranted calculates and applies indirect cost allocations and personnel distributions automatically—boosting cost recovery and freeing your team to focus on higher-level work.

Built-In Compliance Checks

MissionGranted prevents budgeting of unallowable expenses before they become issues, helping you maintain compliance.

Real-Time Budget vs Actual Visibility

MissionGranted gives you clear dashboards that track restricted vs. unrestricted funds, highlight overspending risks, and provide instant clarity for better financial decisions.

Generate Invoices & Reports in Minutes

MissionGranted fast-tracks invoicing and funder reports, capturing the data you need in customizable formats that meet each grantor's requirements at the click of a button – streamlining submissions and saving you hours.

Why Nonprofits and Local Governments Love MissionGranted

Managing multiple grants means endless spreadsheets, complex fund restrictions, and high-stakes compliance risks.

MissionGranted is affordable, intuitive, and designed for teams of all sizes. It eliminates the chaos by integrating with your accounting system to automate budgeting, encourage scenario planning, streamline tracking, ensure compliance, and simplify reporting—all in one easy-to-use cloud application

This is the financial software product the nonprofit world has been waiting for – it's absolutely the solution of the future.
