Reduce time-to-hire and delight candidates with Checkr and SmartRecruiters

Checkr is the modern background check platform offering a **faster, smoother, safer** experience.

Reduce time-to-hire with the fastest background checks from Checkr. Using the integration, users initiate checks and review updates all within SmartRecruiters.

Join enterprises like Asana, Instacart, Qualtrics, StitchFix, and Lyft using Checkr to provide a **delightful background check experience** to both recruiters and candidates—while also ensuring compliance and avoiding errors in hiring decisions.

Candidate updates

Real-time visibility into background check statuses keeps candidates engaged, improves conversion, and helps reduce candidate contact rates up to 15%.

Account hierarchy

Model your Checkr account after your business organizational structure by mapping SmartRecruiters fields (locations, teams, groups) to Checkr "nodes."

Background check ETA

Once a background check has been initiated users will be able to view the status, result, ETA, or a link to the Checkr dashboard from within SmartRecruiters.

Fast

Recruiters quickly kick off the background check process using Checkr in SmartRecruiters.

And **89%** of all criminal checks, including county searches, complete within one hour, **75%** of reports are completed within 1 day.

Smooth

Checkr pulls candidate information from SmartRecruiters and pre-populates candidate invitations.

72% of Checkr customers report spending less time processing background checks since switching to Checkr.

Safe

Maintain compliance using Checkr within SmartRecruiters.

Checkr's **compliance** tools combine the power of technology with the confidence of human review, helping customers to **mitigate risk**.
