Salesloft Connection

Last Modified: June 7, 2023

Connecting to Salesloft you need to make sure that:

- You have a Salesloft account with administrator access.

Instructions (Basic Connection Setup)

Scroll down to ensure you review all steps, as needed...

DataLakeHouse.io securely connects to your Salesloft account.

Using the form please complete the following basic steps:

- Enter a Name or Alias for this connection, in the 'Name/Alias' field, that is unique from other connectors.
- Enter in the 'Target Schema Prefix' field, a name that will be unique in your cloud destination where you wish to land the data.

If any issues occur, simply return to the sources page in DataLakeHouse.io, and edit this source accordingly. If any issues persist please contact our support team via the [DataLakeHouse Support Portal](#).
