

# Streamline Your Background Screening Program

Partnered since 2015, Sterling has worked closely with SmartRecruiters to develop a pre-integrated solution designed to streamline your background screening process. Our easy-to-use, turnkey solutions allow you to accelerate time-to-hire, improve accuracy, and create a more efficient screening process for both recruiters and candidates.

## Sterling's Pre-built Integration Offers:

### Simplified Activation

Using the self-service option, Sterling's integration can be activated quickly and easily, allowing you to start conducting background checks sooner.

### Streamlined Process

Initiate background checks and access a link to the final report all from within the SmartRecruiters platform. Once the background check is initiated, you'll receive real-time status updates so that you always know where you are with each candidate.

### Efficiency

Data pre-population reduces errors and minimizes manual data entry — improving the recruiter and candidate experience.

### Enhanced Candidate Experience

Candidates can complete their portion of the background checks easily and quickly. Our intuitive, mobile-first design gives candidates on-the-go access from any device, anytime, anywhere.
