

handbid

Custom Themes

Make Handbid look like you designed it

Custom themes help guests can interact with the brand they already know and love

- Use your own fonts, colors, and designs
- Replace the Handbid logo with your logo
- Reassure guests that they're engaging with your brand

Two ways to customize your Handbid experience

Custom Theme

Replace Handbid's default fonts, colors, menu labels, and logos with your own. Theming makes Handbid look and feel like the brand your donors already love giving to. With this option, you get custom landing pages for your event and a customized look in our Mobile Apps!

White Label

The sky's the limit when you decide to white label Handbid! We can re-tool the interface, integrate with your backend, and even publish your own app in the app store powered by Handbid!

This is your room. You get to paint the walls.

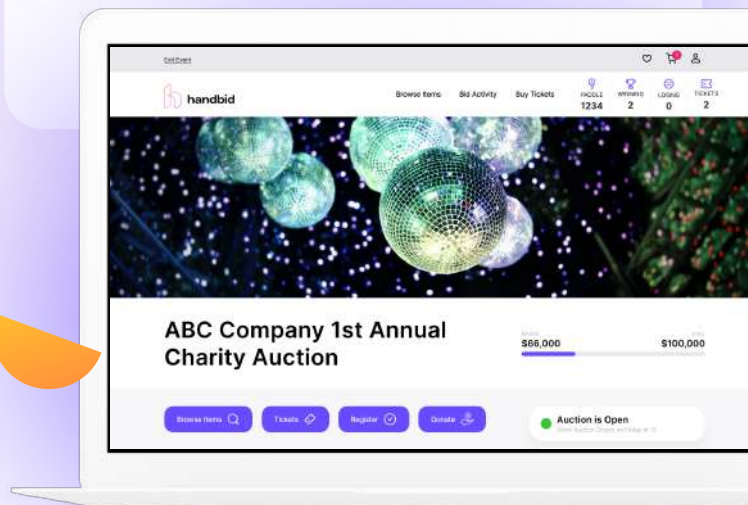

- Brand your Handbid site to look like your own
- Publish custom landing pages with your branding and logos
- Make Handbid look like your other branded materials
- Apply any colors or fonts you want also customize menus and labels
- Ensure the app feels familiar to guests who know your brand
- Easily update Handbid's appearance when you refresh your own brand

With Handbid, you always get to look like you

You use consistent branding across your website, marketing materials, and informational resources – so why not with Handbid?

Let's face it. You may not want your guests to fire up an auction app and see our logo with our colors and fonts. That's why we make it easy to use your own!

Custom themes let you adjust the design to your liking while leaving all the default Handbid features in place.
