Mobile Bidding

More engaged guests. More bids. More auction revenue.

Handbid's mobile bidding app boosts auction participation and helps your guests have an amazing time

- Provide an immersive, app-based auction experience
- Make bidding easier than ever for your guests
- Motivate guests to bid higher and more often

Your guests will love bidding with the Handbid app

Why use an app for mobile bidding? Because it's what your guests prefer! When we pick up our phones, [we spend 93% of our time using apps](#) – not web browsers.

The Handbid app keeps guests connected to your auction and makes bidding practically effortless. Compared to using a browser, it's easier and way more fun.

How mobile bidding helps you raise more money

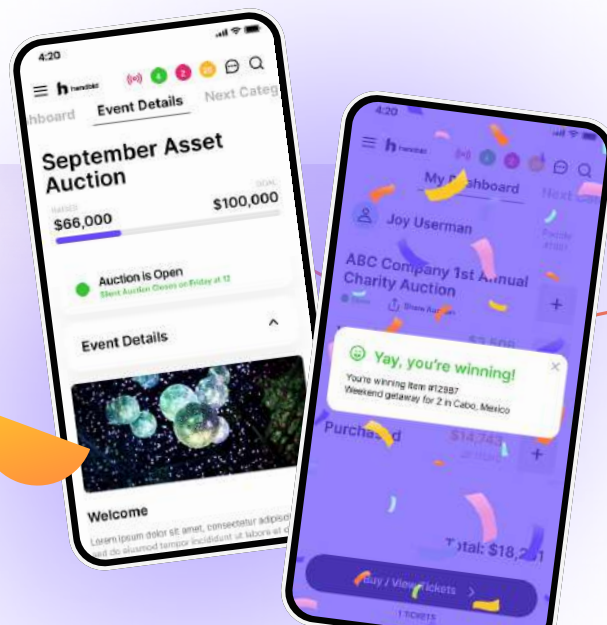

- Bid instantly and repeatedly from anywhere
- Immersive app experience keeps guests engaged (and generous)
- Alerts instantly notify guests when they've been outbid
- In-app livestream shows fundraising progress and motivates bidders
- Easy-to-use interface makes bidding more fun
- Capture credit card info at registration to simplify payments
- Apps available for iPhone and Android devices and a mobile web interface for everyone else

Mobile bidding built for real-world event logistics

Before building Handbid, we ran fundraising events for our own non-profit organization. We know what it takes to run a successful auction.

That's why the Handbid mobile bidding experience accounts for everything that can happen (and does!) during an actual event.

Guests love using the Handbid app at your auction because it makes everything easier and more enjoyable. Basically, they get more time to party and you raise a bunch more money.
