Making Your Technology Wishes Come True

LOGISTICS TECHNOLOGY HQ

Does your organization have IT projects that you can't seem to complete? Would a short-term team of action-orientated people help trim your IT task backlog? Are there things on your technology wish list that seem out of reach?

If so, let's talk.

We're Logistics Technology HQ, a technology company built by logistics people. Our team has over 50 years of combined experience solving these issues in the logistics industry.

Do your customers need

- Custom invoicing
- Dashboards and analytics
- Extended data beyond basic POD
- White labeled end user systems
- Tight integration with your services

Does your business need

- 3rd party accounting system integration
- Operations dashboards and tools
- Management tools to support white glove needs
- Faster integration with other couriers

A sampling of what we've done to transform other logistics providers

- Developing custom analytics
- Upgrading to self or custom invoicing
- Updating rating, service and core elements of rate generation
- Establishing new integrations
- Taking charge of project management
- Custom software development
- Customizing, automating and optimizing e-Courier

How we'll tackle your needs

- *Step #1:* Meeting your team to understand the challenges and goals.
- *Step #2:* Reviewing your data and TMS setup to check for underlying issues
- *Step #3:* Presenting options and developing a shared action plan
- *Step #4:* Working with your team to implement the change

If you're ready for your technology to start working for your organization, you're ready to work with us. Reach out today and let's get started.
