Connect your SmartRecruiters account by following the steps below

Sign in with SmartRecruiters

Setting up a connection with SmartRecruiters requires logging into your account.

 Sign in with SmartRecruiters

Need help? Check out our detailed [connection guide](#).

< Back

Connect your SmartRecruiters account by following the steps below

API Key

To create an API key, open the [Custom Application Credentials](#) page.

We use this API key exclusively for reading and writing screening questions.

On that page, press the "New credential" link choose "API Key" and press next. Then enter a name, role and access group (if needed).

Once the API Key is created, please paste it below:

DCRA1-dc.....d7b

Set up integration

Need help? Check out our detailed [connection guide](#).

Connection set up successfully!

Acme can now start syncing your SmartRecruiters data. There's nothing left for you to do.
