## Deep Data Integration

Enjoy real-time synchronisation between Simpro and Power BI, ensuring that your reports and dashboards are always up-to-date with the latest job, project, and customer data.

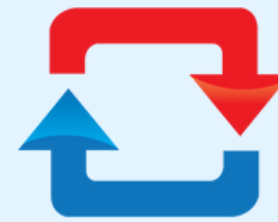

## Customizable Reporting Apps

Connect any Reporting, Dashboard or BI application of your choice, including PowerBI, Zoho Analytics, Tableau, Google Analytics and more.

## Combined Reports by Email

Combine your data from Simpro with any other data source (Xero, QuickBooks, other systems in the business) and generate unified dashboards and reports in PowerBI.

## **Simpro Data Backup**

Have a backup of all of your Simpro data should you decide to move to a different system or need it for ISO or other process management purposes.

## **All of the Simpro DATA**

Simpro has a lot of your business data and we can help you access ALL of it in your favorited reporting engine. We can access all 510 + Data Tables from Simpro, which is more than the API or any other method.

## **Automated Report Generation**

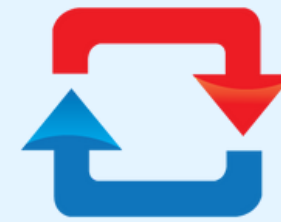

Simplify reporting with automated report generation. Schedule the creation and distribution of customised reports to stakeholders, ensuring everyone has access to the insights they need, when they need them.
